This book's goal is to encourage readers to lead healthy lives without use of chemical or artificial drugs. Use natural medications, which are those derived from plants and have no effect on the way our various body parts function. In this way you can avoid unneeded surgery, diabetes, cancer, heart attack, and kidney failure. My Guru His holiness Annasaheb More (known as Gurumauli means Mother like caretaker guru) working for well being of human life through his whole life, he suggested all this medicine in his speech. Out of this, some medicines are taken from the Vedas and other ancient writings. Some supporting information can be obtained from the Ayurveda writings of various Vaidyas (a former term for doctors).

The medications recommended in this book are a result of reverse pharmacy research. In the reverse order, pharmacy drugs are examined after they are utilized in the community. Every medication mentioned in books is used on various kinds of people. Although the fact that there are no side effects, but an accurate diagnosis of the ailment from which you are suffering is still required. Another important consideration is that since all of them are prescribed according to Maharashtra (India), it is essential to recognize and choose particular plant drugs. You can speak with the medical staff at "SADGURU MORE DADA CHARITABLE HOSPITAL TRIMBAKESHWAR (GURUPITH), Dist- Nashik, State- Maharashtra, India, for help choosing the right medication and with any other questions. Always apply the medicine in under supervision of doctors.
